

STEELHEAD AND SALMON RULES AND INFORMATION

Anyone fishing for anadromous salmon and/or steelhead, except those expressly exempt, must have a valid fishing license and salmon and/or steelhead permit(s) on his/ her person. These license and permit requirements also apply when fishing for hatchery salmon or steelhead stocked by Idaho Fish and Game in the Boise River or Hells Canyon Reservoir.

Any person who does not qualify as a resident (see Page 61) must purchase either a nonresident season fishing license and a full-season salmon and/or steelhead permit or a nonresident 3-day salmon/steelhead license/permit.

Children (including nonresident children) under the age of 14 are exempt from purchasing salmon and steelhead permits. They may fish without permits if they are accompanied by a valid permit holder, provided that any fish caught must be recorded on the permit holder's card and counted in the permit holder's legal bag, possession and season limit. A resident child under 14 may purchase permits without a license so that they may catch their own limit(s) of salmon and/or steelhead.

Any non-resident under the age of 18 may purchase a junior non-resident fishing license and appropriate permit so they may catch their own limit of salmon or steelhead.

Methods of Take

- Any angler, who has attained the bag, possession, or season limit on those waters with salmon or steelhead limits, must cease fishing for salmon or steelhead including catch-and-release fishing.

- Only single-pointed barbless hooks are allowed when fishing for salmon or steelhead in the South Fork Clearwater River.
- No person shall kill or retain in possession any salmon or steelhead which has been hooked other than in the mouth or jaw. Any salmon or steelhead hooked other than in the mouth or jaw must be released. See snagging definition on Page 47.
- Salmon and steelhead may be taken with barbed hooks in the Boise River and the Snake River between Hells Canyon and Oxbow dams.
- Only barbless hooks with a maximum 5/8 inch gap between shank and point may be used when fishing for salmon or steelhead in the Salmon and Clearwater river drainages and the Snake River below Hells Canyon Dam. Bending the barb(s) down to the shank of a single, double, or treble hook will meet this requirement.

Please Note

- Fishing for or targeting salmon or steelhead is prohibited unless a season is specifically opened for the species on that water.
- Steelhead with an intact adipose fin cannot be reduced to possession and must be released. Prior to September 1 each year Chinook salmon with an intact adipose fin cannot be reduced to possession and must be released.
- Anglers should refer to season proclamations to determine if Chinook and coho salmon with an intact adipose fin can be retained beginning September 1 each year.
- Any anadromous salmon or steelhead that is being reduced to possession must be killed immediately. Otherwise, the fish must be released upon landing.
- All fish that are hooked, landed, and reduced to possession shall be counted in the limit of the person hooking the fish. Daily and possession limits for adult Chinook salmon (24 or more inches in length) and jack salmon (less than 24 inches in length) may differ and unless specifically stipulated otherwise by the Idaho Department of Fish and Game Commission for a season or waters, jack salmon are not included in the season limit and need not be entered on the anglers's permit.
- No person shall have in the field or in transit any salmon or steelhead from which the head or tail has been removed unless: 1) the angler is ashore and done fishing for the day; 2) the salmon or steelhead is properly recorded on the anglers permit; and 3) the fish is processed or packaged with the skin naturally attached to the flesh including a portion with a healed, clipped adipose fin scar or the adipose fin. The fish must be processed or packaged in a manner that the number of fish harvested can be readily determined. Processed salmon and steelhead cannot be transported by boat.
- Steelhead harvest and angler participation are estimated by a telephone survey conducted within a few weeks after the season closes. You may be called and asked about your effort and success. Please save your permit until three months after the season has closed or until you are contacted by Idaho Fish and Game.

Prepare to Release!
 Help ensure survival of released
 salmon and steelhead

- Use proper sized gear and keep fight time to a minimum
- Do not pull fish onto rock, sand, or dirt banks—instead, use a net or “tail” the fish
- Minimize time out of water
- Do not handle the fish by the gills
- If necessary, revive the fish by gently holding it in the water

- Boise River 28

Permit Validation

When a steelhead or salmon has been hooked, landed and reduced to possession, the angler hooking the fish must immediately:

- Completely remove one numbered notch (*) from the permit in correct season column;
- Look up the number code from the River Location Code list and write it in the space provided; and
- Enter the month and day the fish was harvested.

*1	6/01	07

REMOVE NOTCH

As per IDFG Commission action, effective October 13, 2017, the temporary 2017 season changes are as follows:

Steelhead Seasons and Limits														
River Section	Spring Season 20 fish per season						Fall Season 20 fish per season							
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec		
Clearwater River from its mouth upstream to the Memorial Bridge of U.S. Highway 12 at Lewiston.	Jan 1 - Apr 30 3 per day, 9 in possession			Closed to steelhead fishing			Jul 1 - 31 Catch-and-Release	Oct 15 - Dec 31 2 per day, 6 in possession <u>none over 28 inches</u>						
Clearwater River: Mainstem and Middle Fork Clearwater River from the Memorial Bridge of U.S. Highway 12 at Lewiston upstream to Clear Creek.	Jan 1 - Apr 30 3 per day, 9 in possession			Closed to steelhead fishing			Jul 1 - Oct 14 Catch-and-Release			Oct 15 - Dec 31 2 per day, 6 in possession <u>none over 28 inches</u>				
Closures: Fishing is prohibited between posted boundaries about 100 yards upstream and downstream from the Nez Perce Tribal Hatchery Ladder and extending into the river channel about 50 yards. Fishing from the shoreline or wading along the perimeter of Dworshak National Fish Hatchery is prohibited . Fishing from motorized watercraft is prohibited from the Clearwater River Bridge at Orofino upstream to the confluence of the Selway and Lochsa rivers from Sep 1 - Apr 30.														
North Fork Clearwater River from its mouth upstream to Dworshak Dam.	Jan 1 - Apr 30 3 per day, 9 in possession			Closed to steelhead fishing						Oct 15 - Dec 31 2 per day, 6 in possession <u>none over 28 inches</u>				
Closures: Fishing from the shoreline or wading along the perimeter of Dworshak National Fish Hatchery is prohibited . Fishing from any watercraft or wading is prohibited between the posted line about 150 yards upstream from the mouth of the North Fork Clearwater River and the Ahsahka Highway 7 Bridge. When fishing from the Ahsahka Highway 7 Bridge, it is illegal to take any fish downstream of the railroad bridge. Fishing from the railroad bridge is prohibited .														
South Fork Clearwater River from its mouth upstream to the confluence of American and Red rivers.	Jan 1 - Apr 30 3 per day, 9 in possession.			Closed to steelhead fishing			Jul 1 - Oct 14 Catch-and-Release.			Oct 15 - Dec 31 2 per day, 6 in possession <u>none over 28 inches</u>				
Note: Only single-pointed barbless hooks are allowed when fishing for steelhead or salmon														
Salmon River from its mouth upstream to the Lake Creek Bridge (about 6 miles upstream from the mouth of the Little Salmon River).	Jan 1 - Apr 30 3 per day, 9 in possession			Closed to steelhead fishing										
Salmon River from the Lake Creek Bridge to Long Tom Creek (3/4 mile upstream from the Middle Fork Salmon River).	Jan 1 - Mar 31 3 per day, 9 in possession			Closed to steelhead fishing						Oct 15 - Dec 31 2 per day, <u>6</u> in possession				
Salmon River from Long Tom Creek (3/4 mile upstream from the Middle Fork Salmon River) to posted boundary 100 yards downstream of Sawtooth Hatchery.	Jan 1 - Apr 30 3 per day, 9 in possession			Closed to steelhead fishing						Aug 1 - Aug 31 Catch-and-Release				

**Salmon seasons and bag limits will be set annually
by the Idaho Department of Fish and Game Commission.**

NOTE: Seasons and bag limits may be changed by emergency Commission or Director action. Please consult our webpage, license vendors, or regional offices for changes to rules published in this document.

Steelhead Seasons and Limits												
River Section	Spring Season 20 fish per season						Fall Season 20 fish per season					
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Little Salmon River from its mouth upstream to the U.S. Highway 95 bridge near Smokey Boulder road.	Jan 1 - May 15 3 per day, 9 in possession				Closed to steelhead fishing		Aug 1 - Aug 31 Catch-and-Release		Oct 15 - Dec 31 2 per day, 6 in possession			
Snake River from the Washington State line at the confluence of the Snake and Clearwater Rivers upstream to Hells Canyon Dam.	Jan 1 - Apr 30 3 per day, 9 in possession				Closed to steelhead fishing		Aug 1 - Aug 31 Catch-and-Release		Snake River downstream of Couse Creek ramp, none over 28 inches			
Snake River from Hells Canyon Dam to Oxbow Dam, and Boise River from its mouth upstream to Barber Dam.	Jan 1 - May 31 3 per day, 9 in possession				Not present		Aug 1 - Aug 31 Catch-and-Release		Oct 15 - Dec 31 2 per day, 6 in possession Upstream from Couse Creek ramp to Hells Canyon Dam			
<p>Adult steelhead are only present in the Boise River and the Snake River above Hells Canyon Dam when stocked by Idaho Fish and Game. Check with regional offices to determine if steelhead have been released that year. A steelhead permit is required to fish for and keep steelhead (rainbow trout longer than 20 inches with a clipped adipose fin). Limits are 2 per day and 6 in possession when steelhead are present. Barbless hooks are not required.</p>												

When and Where you are expected to see Salmon and Steelhead in Idaho

Alturas Lake and Creek Pettit Lake and Creek Redfish Lake and Creek	Clearwater River & Tributaries (not listed but protected under state law)	Lower Salmon River	Salmon River & Tributaries

Salmon & Steelhead Fishing in Boundary Waters

The Snake River between Idaho, Oregon, or Washington: The holder of a valid Idaho fishing license and salmon or steelhead permit may fish for those species provided the season is open in the Snake River where it forms the boundary between the states of Idaho and Oregon or Washington, subject to the fish and game laws of Idaho, but may not fish from the shoreline, including wading, and may not fish in sloughs or tributaries on the Oregon or Washington side. Any Oregon or Washington license holder has the same rights and restrictions with reference to the Idaho side. Any angler who fishes on the Snake River or any other water forming an Idaho boundary is entitled to have in possession only the limit allowed by one license regardless of the number of licenses in possession.

Permit Validation

See page 40 for example.

When an adult salmon (24 or more inches in length) or steelhead (20 or more inches in length) has been hooked, landed, and reduced to possession (must be killed immediately), the angler hooking the fish must immediately:

1. Completely remove one numbered notch from the permit.
2. Look up the number code from the River Location Code list and write it in the space provided.
3. Enter the month and day the fish was harvested.

However, when a salmon or steelhead is released rather than reduced to possession, the angler is not required to make an entry on the permit.

Unless otherwise stipulated by the Idaho Department of Fish and Game Commission. Jack Chinook salmon (less than 24 inches in length) are not included in an anglers season limit and need not be entered on their permit.

Unclipped Adipose Fin

Steelhead with an unclipped adipose fin must be released. Prior to September 1 of each year, salmon with an unclipped adipose fin must be released. Between September 1 and December 31 each year, anglers should check Chinook and coho salmon season proclamations to determine if either of those species can be harvested with an intact adipose fin.

Clipped Adipose Fin

Hatchery steelhead or salmon may be kept if the adipose fin has been clipped as evidenced by a healed scar.

Washington/Idaho Fishing Waters Boundaries
